

Michigan Blood

MAKE A
CONNECTION
THAT MAKES
LIFE MORE
COLORFUL
**TATTOOS &
BLOOD DONATION**

You may be eligible to donate blood after getting a tattoo or permanent makeup if it was done at a licensed facility in a regulated state AND it is healed without infection. If your tattoo or permanent makeup was NOT done in a state regulated facility, wait 12 months before donating blood.

Most states, including Michigan, now have regulations for tattoo parlors which make getting a tattoo or permanent makeup safer. For a complete list of regulated states, visit miblood.org/testingsafety
